

June 2021

## Price Update

We first and foremost would like to thank you, our dealers, for your loyalty and understanding as we have had to transition quickly through challenging circumstances this past year.

With continued instability in the market we are asking that all of our dealers take advantage of our **online builder**, a resource that we have put into place this past year to submit orders. This will ensure that we are able to give you the most accurate and up-to-date pricing as quickly as possible, reducing pricing errors. We are confident that this transition will help us better meet our customers expectations and give a consistent experience for our valued dealers.

If you need assistance getting set up to process orders online please contact your dealer representative. We will be ready to assist you in order to ensure that you are able to service your customer.

In the upcoming days you can expect to see our price structure change as we adjust pricing and remove the surcharge. At this time we would ask you to not use your printed price books as they are no longer accurate.

A current price guide is available at this link, [www.randbmetalstructures.com/literature](http://www.randbmetalstructures.com/literature). At this time we are able to honor quotes for 15 days.

We will continue to monitor lead times and keep you up to date at [www.randbmetalstructures.com/lead-times/](http://www.randbmetalstructures.com/lead-times/).
